

**DESIGNED TO PROVIDE WARMTH,
COMFORT AND DIGNITY.**

DISPOSABLE PATIENT BLANKET

Eliminates the Need for Laundry or Linen Services

What is the Medline Patient Blanket?

The Medline Patient Blanket is used for patient comfort and modesty during examinations and surgeries, in the perioperative and postoperative periods or for emergency/ambulance services.

Medline's Patient Blanket can also be used as an additional heat management tool as part of an enhanced recovery programme to regulate a patient's temperature before, during and after surgery. The blanket can quickly and easily address your needs and your patient's needs without the requirement for a warming unit.

BENEFITS

- Low linting
- Can be heated in the warming cabinet
- Strong, tear-resistant
- Gentle and non-irritating
- Single-use, minimising cross-contamination between patients
- Breathable
