

# DORMO®-STRIP Vein Stripper

Single-use and sterile standard vein stripper

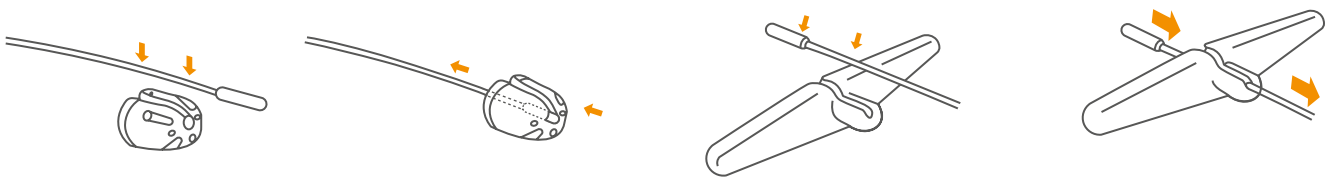

The DORMO®-STRIP Vein Stripper is intended for use during surgical interventions in which the stripping of a vein is required. Each vein stripper can be used with the two most common removal techniques: conventional stripping and invagination stripping.

Three olive sizes to facilitate stripping different vein types

- Secured and resistant polyamide device
- Double-sterile packaging

## Easy to assemble: Handles and olives to fit all ends
