

NEW MEDLINE GLOVES PACKAGING

More Gloves, Better Productivity

100% more gloves per box

compared to the industry average

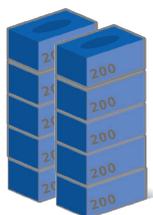

vs

50% fewer trips to the storeroom

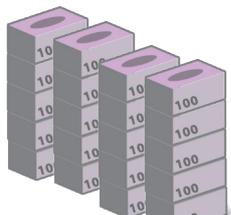

for replacing empty boxes

How many trips for 2,000 gloves?

10 trips made to the storeroom

Medline

20 trips made to the storeroom—no boxes left

Industry standard

50% less cardboard waste*

Medline

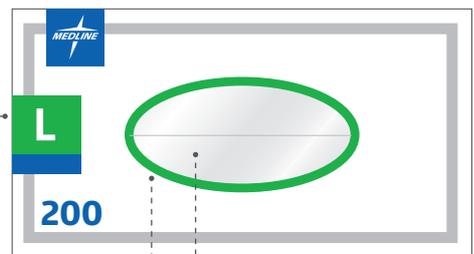

Industry standard

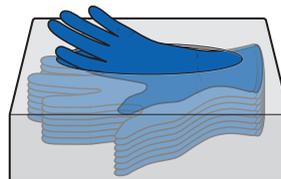

More efficient packaging

Colour-coded sizing quickly identifies the right glove size.

MicroStop film helps keep gloves in the box.

Medline

- » Robotic flat-layer packaging
- » Easy removal—one glove at a time
- » More gloves per box

Industry standard

- » Gloves stuffed in box
- » Hard to remove—can lead to waste
- » Fewer gloves per box

*Based on weight of empty boxes and cases of 4.2 million gloves, which is the average annual volume of a 200-bed hospital
