FOR SPILL CONTROL.***

LIQUI-LOC™ Absorbent Floor Mat
Three sizes to fit your needs.

CHOOSE YOUR LEVEL OF SPILL CONTROL

- 3000 GSM (Grams per Square Meter) absorption and excellent value
- Top sheet is made of durable, non-lint material
- Impervious and waterproof, non-slip backing and waterproof
- Environmentally friendly mats made with up to 60% recycled materials

LIQUI-LOC™ has two sides. The top side is a cold form cellulose media polyester fiber which absorbs liquids. The under side is a blue poly backing which makes the mat anti-slip. Liqui-Loc helps provide a safer environment by reducing the risk of infections and slips due to spills.

Liqui-Loc Floor Mat portfolio
