

MED-RIGID

Disposable rigid suction canisters

An accurate and practical suction system

MED-RIGID Suction Canisters

Discover strong, durable construction and ease of use.

Disposable suction system based on a canister/holder combination for the collection of bodily fluids, liquids and aspiration waste. The canister holder is reusable and the rigid canister is single patient use. The MED-RIGID system features single-use disposable hard locking lid attachments and a clear transparent canister with ability to stand alone. This device encourages the proper disposal of infectious liquid medical waste and enhances worker safety.

Special brackets and stands are available for convenient mounting configurations and mobility.

MED-RIGID Canister Holders

Reusable Canister Holders are used to support the MED-RIGID canister in any slide mount such as the wall support or mobile trolley. Built with preattached red vacuum tube for connection to MED-RIGID canister and ON/OFF switch for vacuum control.

Item No.	Description	Packaging
OR159	MED-RIGID Canister Holder, for 1.2L canister	20/cs
OR139	MED-RIGID Canister Holder, for 2 or 3L canister	20/cs

MED-RIGID Canisters

MED-RIGID Canisters are single patient use. Available in 1.2, 2L, 3L and even 12L each featuring a hard, disposable body and lid.

Item No.	Description	Packaging
OR212	MED-RIGID Canister, 1.2L	40/cs
OR220	MED-RIGID Canister, 2L	40/cs
OR230	MED-RIGID Canister, 3L	40/cs
ORLVC	MED-RIGID Canister, 12L For this specific canister, please use its dedicated metallic trolley (Item No. OR12LTR)	4/cs

MED-RIGID Canisters with Suction Tubing

MED-RIGID Canisters are available in kits, including a non-sterile ORNEX tubing. ORNEX is a low memory flexible tubing with ribbed external surface to increase its resistance.

Item No.	Description	Packaging
OR312	MED-RIGID Canister 1.2L + 5mm x 1.8m Tubing	30/cs
OR320	MED-RIGID Canister 2L + 5mm x 1.8m Tubing	30/cs
OR319	MED-RIGID Canister 3L + 6mm x 3.0m Tubing	30/cs

MED-RIGID Tandem Tubing

Used for the connection of several canisters and automatic transfer of fluids from one canister to the next one.

Item No.	Description	Packaging
OR542	Tandem Tubing for MED-RIGID Canister	50/cs

Hardware and dedicated equipment

Disposable specimen traps

The disposable specimen traps are used to collect and retain samples for analysis. They can be affixed to the accessory port of the MED-RIGID canisters and connected 7 mm or 10 mm suction tubing.

Item No.	Description	Packaging
OR123	Short specimen sock (9 cm), with male connector (diameter 7 mm)	100/cs
OR125	Standard specimen sock (23 cm), with male connector (diameter 7 mm)	100/cs
OR124	Large specimen sock (23 cm), with male connector (diameter 10 mm)	100/cs
OR84	Specimen cup (diameter 10 cm)	20/cs

Mounting brackets

Item No.	Description	Packaging
DYNDSCW	Plastic wall mount	20/cs
ORCLAMP	Plastic rail clamp	20/cs
FKD0036	Convertor for Medline suction canister compatible with VacSax holder	10/cs
ORCONVS	Convertor for Medline suction canister compatible with Serres rail clamp	20/cs

Trolleys

These products enable advanced and customised configurations.

Item No.	Description	Packaging
DYNDSCC	Metallic canister trolley (adjustable height between 61 and 106 cm, can hold 4 canisters)	1/cs
ORBASE	Canister trolley (fixed height 50 cm, can hold 2 canisters)	1/cs
ORSTAND	Canister holder with adhesive base	10/cs
ORSTANDR	Canister holder with roll stand	2/cs

Reusable tubing

Our reusable manifold tubing enables customised setup by connecting a multiple-canister network to the vacuum source.

Item No.	Description	Packaging
DYND2MNF	Manifold tubing for 2 canisters	10/cs
DYND3MNF	Manifold tubing for 3 canisters	10/cs
DYND4MNF	Manifold tubing for 4 canisters	10/cs
