

# Patient Wear

Offering the best of patient care and operating theatre efficiency

**Dress your  
patients for  
success**

# Patient gowns

Improving patient care is a priority for all healthcare providers. Most hospitals and care professionals take this goal a step further and have the overall objective to achieve a high level of patient-centred care and satisfaction.

At Medline, we think the quality of the product contributes to the quality of care that patients receive during their time in the hospital. Therefore, our patient gowns provide your patients with opacity, comfort and modesty during hospital stays. This is because they are manufactured from a soft and anti-static non-woven SMS material.

Medline offers a wide variety of designs and sizes to meet the needs of your department. Choose from a selection of patient gowns with front or back openings.

Item number	Size	Description	Packaging
NONE27046 NONE27046XL	L XL	Sleeveless patient gown, blue	50/case

# Patient kits

Our expertise in medical apparel design and manufacturing allows us to offer new solutions for day surgeries. With efficiency in mind, Medline has created a variety of patient kit solutions to suit your needs and budget.

The kits contain single-use patient apparel, which patients can wear during their diagnostic procedure or day surgery. All components are conveniently packed in a single bag that can be given to the patient upon arrival. Due to its packaging, organising storage and replenishing stock are easy to handle, and you only have to order one item instead of four or five individual components.

As a leading international manufacturer and distributor of medical devices, we understand your focus and your patients' needs. We apply the highest quality standards to our products at every step of the manufacturing and assembly process.
