

PluroGel® Micelle Matrix Technology™

Burn and wound dressing

**Advanced
wound care**

A unique approach to wound management

PluroGel is a unique burn and wound dressing utilising Micelle Matrix Technology. This is a concentrated, cell-friendly surfactant to aid in maintaining an optimal moist wound healing environment that promotes autolytic debridement. PluroGel helps protect healthy tissue and soften wound debris.

Promoting patient comfort

100% water soluble

PluroGel softens wound debris and allows it to easily rinse off while changing dressings, creating a positive dressing change experience.

Gentle, non-irritating formula

This unique formula allows for a gentle patient experience.

Better adherence to wounds

PluroGel maintains its consistency, enabling it to remain on the wound bed for better protection.

PluroGel's mechanism of action

Micelle matrix technology

Surfactancy effect

PluroGel is a concentrated surfactant that contains both a hydrophilic surface and hydrophobic core to donate moisture and solubilise exudate. Its unique matrix creates a rinsing effect on a molecular level. It softens, loosens and traps debris to de-slough the wound bed.

PluroGel at a glance

- Removes barriers to healing
- Maintains an optimal moist wound healing environment
- Facilitates removal of necrotic tissue and slough
- Is safe on granulating tissue
