**QuickSuite® Operating Room Table Kits**  
All-in one kits for your operating theatre

# REDUCE OPERATING THEATRE TURNOVER TIME. PROMOTE PATIENT SAFETY.

Medline's QuickSuite OR Table Kits contain an assortment of disposable components used before a procedure to set up the operating theatre table and after the procedure to rapidly clear it for the next patient. QuickSuite lets you conquer some of your largest theatre challenges by helping you:

## Boost efficiency

QuickSuite OR Table Kits contain everything you need to set up the operating theatre table for the next procedure quickly and efficiently.

## Promote safety

QuickSuite items are single-use and should be discarded after the procedure, reducing the risk of cross-contamination. With QuickSuite, you get a collection of products, including our Sahara Absorbent OR Table Sheet, that work together to keep your patient dry and comfortable. The impervious layer of our Sahara sheet protects the theatre table pads since it prevents liquids from touching it.

## Lower costs

The different QuickSuite kits have everything you need for setting up the operating theatre table, which helps you eliminate laundering costs as well as replacement costs for linens and operating theatre table pads.

## REDUCE MOISTURE: SAHARA ABSORBENT OR TABLE SHEET.

Excessive moisture is one of the major causes of skin maceration and breaking. Tests show that the Sahara Absorbent OR Table Sheet absorbs 2,056 per cent of its mass or over 3.7 litres/m<sup>2</sup> of fluid,<sup>(1)</sup> helping reduce the risk of skin breakdown through moisture management.

### BENEFITS

- Core polymer technology rapidly wicks moisture away, maintaining skin integrity.
- Three different sizes for different usage: 102 x 230 cm, 102 x 152 cm and 100 x 310 cm
- Quilted for a smooth surface
- Disposable design creates a low risk for harbouring bacteria.
- Low linting
- Sahara Grippy is ideal for surgical procedures that require a tilted position.

DYKQ501	x			x		x			30

<sup>(2)</sup>These items include a slippery backsheet. All other Sahara sheets include a non-slip backsheet.

## KEEP YOUR PATIENT WARM AND COMFORTABLE: MEDLINE PATIENT BLANKET.

In addition to our disposable components and kits, Medline offers a Disposable Patient Blanket for patient comfort and modesty during examinations and surgeries in the perioperative and post-operative periods.

### BENEFITS

- Low linting
- Breathable
- Can be heated in the warming cabinet
- Strong, tear-resistant
- Gentle and non-irritating
- Single-use, minimising cross-contamination between patients
