

QuickSuite® and Ultrasorbs®

Catalogue of solutions

**Operating
theatre
efficiency
and protection**

QuickSuite helps your operating theatre run smarter, smoother and safer.

Every minute counts.

Hospital operating theatres are a critical but costly resource in the healthcare process. The efficiency and utilisation of operating theatres impact hospitals' finances, clinical effectiveness and general patient outcomes.¹

Keep your procedures on track with QuickSuite and Ultrasorbs for operating theatres for a faster, more efficient turnover.

There's a real need for protection.

The incidence of pressure ulcers in surgical patients continues to increase.³ Apart from pressure, moisture, temperature, friction and shear are four of the main extrinsic factors associated with pressure ulcer development. Keeping patients' skin dry is essential to help prevent pressure ulcers and moisture-associated skin damage (MASD).

Choose from a selection of disposable linens, kits, or individual components designed to wick moisture away from the skin.

Prevent to save.

The role of surface contamination in the transmission of nosocomial pathogens is increasingly being recognised. The inanimate environment in operating theatres (e.g. tables, floors, and equipment surfaces) has been considered a potential source of pathogens that may cause surgical site infections (SSIs).⁵

Our disposable solutions help reduce the risk of cross-contamination and maximise barrier protection during theatre turnover.

Increase efficiency

The cost of inefficiency, due to turnaround delays, is estimated to be **£24.77** per minute.²

Improve safety

Approximately **23%** of hospital-acquired pressure ulcers develop during surgeries lasting longer than 3 hours.⁴

Contain costs

The cost of SSIs to the National Health Service is an additional **£10,523** per patient.⁶

All levels of protection

Elevate patient safety and operational efficiency in the operating theatre with Medline's Sahara and Ultrasorbs absorbent table covers.

Choose the most optimal solution for your surgical procedures:

- **Sahara OR Table Sheets** for standard procedures with a low to medium level of fluids
- **Ultrasorbs Breathable Superabsorbent OR Table Sheet** for high-fluid procedures (cardiac, general/thoracic, orthopaedic); offers enhanced moisture management and maintains an optimal microenvironment for the skin

Both solutions have an impervious design that protects operating tables from fluids, thereby reducing risk of harbouring bacteria.

Sahara Protective OR Table Sheet

This sheet offers effective protection for the operating table during short low-fluid procedures. It has a durable impervious back sheet with a soft non-woven top sheet.

Sahara Superabsorbent OR Table Sheet

This superabsorbent sheet helps to elevate patient comfort and safety during standard procedures in the operating theatre by simultaneously protecting patients' skin and the operating table from fluids.

It is also available in a fitted configuration that guarantees fast and easy application.

Ultrasorbs Breathable Drypads

This ultra-soft, multi-layer breathable disposable sheet offers a specially designed solution for rapid and effective moisture management. Its superabsorbent polymer core wicks moisture away from patients' skin and is dry to the touch within minutes.

Recommended for patients at a high risk of skin breakdown, the sheet is available with a reinforced back sheet for patient turning and repositioning (150 to 170 kg weight capacity). A sterile version is available.

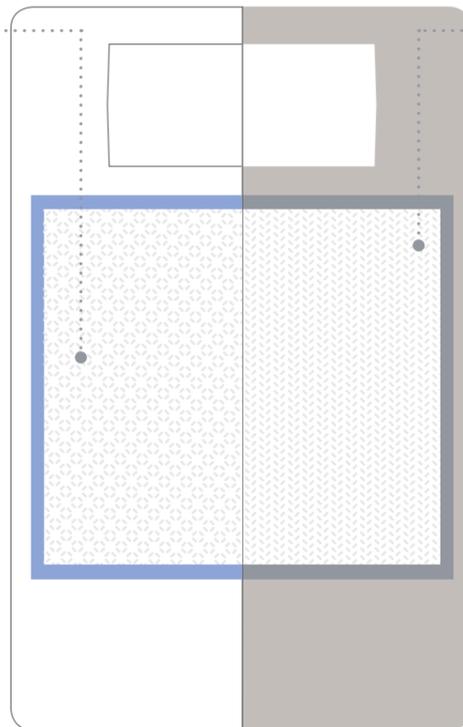

Choose the most suitable solution for your operating theatre

A comparison of Sahara and Ultrasorbs

Sahara

- Core polymer technology to rapidly wick moisture away; maintains skin integrity*
- Quilted for a smooth surface; promotes patient comfort*
- Available in 3 different sizes for different procedures:
 - » 102 x 230 cm
 - » 102 x 152 cm
 - » 100 x 310 cm
- Sahara non-slippery back film for enhanced grip to the operating table surface
- Low risk of harbouring bacteria because it is disposable

(* Except Sahara Protective)

Ultrasorbs

- Air-permeable, superabsorbent core technology to rapidly wick moisture away; reduces body heat build-up and maintains an optimal microenvironment for skin integrity
- Soft top sheet for enhanced patient comfort to help reduce friction and shear
- Available in sterile versions and with a reinforced back sheet; allows you to turn, reposition and transfer patients weighing up to 170 kg
- Enhanced absorbency
- Low risk of harbouring bacteria because it is disposable

Barrier protection

QuickSuite linen kits shield your operating table pads from bodily fluids and bacteria, and reduce replacement costs.

Below is the ordering information for the different configurations of the above-mentioned products.

| Product | Item code | Size | Absorbency level | Low linting | Air-permeable | Non-slippery back sheet | Lifting capacity | Sterile | Packaging |
|-------------|---------------|--------------|------------------|-------------|---------------|-------------------------|------------------|---------|-----------|
| Sahara® | DYND4090NA | 102 x 230 cm | Low | X | | X | | | 40 |
| | DYND4060SBE | 102 x 152 cm | High | X | | X | | | 20 |
| | DYND4090SBE | 102 x 230 cm | High | X | | X | | | 20 |
| | DYNDE4090FTD | 102 x 230 cm | High | X | | X | | | 20 |
| | QSS01 (Angio) | 100 x 310 cm | High | X | | | | | 20 |
| Ultrasorbs® | MSCE4090PUPS | 101 x 228 cm | Very high | X | X | | | | 30 |
| | MSCE4090PPSTA | 101 x 228 cm | Very high | X | X | | | X | 25 |
| | USAP4090ES | 101 x 228 cm | Very high | X | X | | 170 kg | | 25 |
| Extrasorbs® | EXTRASRBE150 | 80 x 210 cm | Very high | X | X | | 150 kg | | 30 |

Pick the perfect kit ...

Time is money—and safety is everything. Speed up your set-up and take-down processes with a QuickSuite complete theatre turnover kit.

QuickSuite Kit

Each set is single-use, so every case starts clean. And everything is at your fingertips in one convenient kit. You can order a QuickSuite kit with different components for various surgical procedures and depending on your needs. The ability to customise your kit helps reduce waste.

| Items | Sahara Absorbent OR Table Sheet | | Draw/lift sheet | Armboard cover | Headboard cover | Fitted armboard cover | Disposable body strap | Underpads (2 eaches) | Packaging |

| DYKQSC02 | X | | X | | | | | X | 16 |

... Or order individual items

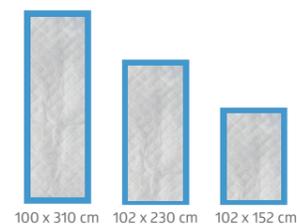

Shop 'off-the-shelf' to buy only those disposable items you need separately.

Sahara OR Table Sheet

The Sahara sheet contains core polymer technology that rapidly wicks moisture away and helps maintain skin integrity. Its quilted pattern helps moisture to spread evenly throughout the sheet and, thanks to sealed edges, the liquid is prevented from leaking. In addition, the impervious layer and disposable design create low risk for harbouring bacteria.

| Item code | Description | Size | Packaging |
|--------------|--|--------------|-----------|
| DYND4060SBE | Sahara Superabsorbent OR Table Sheet | 102 x 152 cm | 20 |
| DYND4090SBE | Sahara Superabsorbent OR Table Sheet | 102 x 230 cm | 20 |
| QSS01(*) | Sahara Absorbent Angiography Table Sheet | 100 x 310 cm | 20 |
| DYND4090NA | Sahara Protective OR Table Sheet | 102 x 230 cm | 40 |
| DYNDE4090FTD | Sahara Absorbent Fitted Sheet | 102 x 230 cm | 20 |

(*)These items include a standard back sheet. All other Sahara sheets include a non-slip back sheet

Individual components

These products are available as single items or collectively in a package in Medline's QuickSuite OR Table Kit. Every kit contains an assortment of disposable components that may be used to easily and efficiently set up and clean the operating table.

Draw/Lift Sheets

Medline's soft disposable lift sheets are optimal for repositioning patients and transferring them to and from the operating table. Configurations with handles are also available; designed for overhead lifting systems.

| Item code | Description | Size | Packaging | Weight capacity |
|-------------|------------------------------|--------------|-----------|-----------------|
| DYNDDS4060E | Draw/lift sheet; white | 102 x 152 cm | 20 | Up to 200 kg |
| DYNDDS6078E | Draw/lift sheet; white | 152 x 198 cm | 20 | Up to 224 kg |
| QSL501 | Draw/lift sheet with handles | 90 x 175 cm | 20 | Up to 220 kg |

Headboard, Armboard and Leg Stirrups Covers

Designed to protect the operating table headboard, armboards and leg stirrups during surgeries. The impervious polyethylene layer keeps the equipment clean and dry, reducing the potential for cross-contamination and extending the period of usability.

| Item code | Description | Size | Packaging |
|--------------|---------------------------------------|----------------|-----------|
| QSACOVER | Armboard cover with straps | 72.5 x 33.5 cm | 100 |
| QSACEL01 | Fitted armboard cover with straps | 152 x 198 cm | 100 |
| QSLCEL01 | Fitted stirrups cover with straps | 102 x 52 cm | 100 |
| DYKQSHPC1CEA | Operating table head positioner cover | 38 x 39 cm | 300 |

Disposable Patient Blanket

Medline's Disposable Patient Blanket provides warmth, comfort and dignity to patients during examinations and surgery, in the perioperative and postoperative periods.

| Item code | Description | Size | Packaging |
|-----------|---|--------------|-----------|
| DORB01 | Disposable Patient Blanket | 110 x 210 cm | 30 |
| DORB02 | Disposable Patient Blanket (bulk packaging) | 110 x 210 cm | 26 |

Patient Body Straps

These are soft and strong foam straps for securing the patient to the operating table or trolleys and limiting unwanted movements and injuries during surgeries.

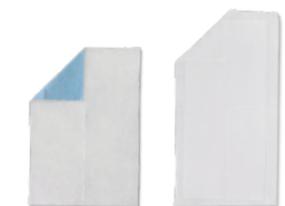

| Item code | Description | Size | Packaging |
|-----------|--|--------------|-----------|
| ORS01 | Disposable body strap; hook-and-loop closure, x2 | 10 x 83.5 cm | 24 |

Floor Safety Solutions

Our complete floor safety portfolio addresses the hazard of falls, and the need for quick fluid removal and to improve safety in the work environment.

| Item code | Description | Size | Absorbency level | Anti-slip | Packaging |
|-----------|------------------------|-----------------|------------------|-----------|-----------|
| ORLLPBS | Liqui-Loc; small | 71.1 x 101.6 cm | 2.2 ltr | Yes | 13/cs |
| ORLLPBM | Liqui-Loc; medium | 71.1 x 142.2 cm | 3.0 ltr | Yes | 10/cs |
| ORLLPBL | Liqui-Loc; large | 71.1 x 182.8 cm | 3.9 ltr | Yes | 8/cs |
| ORDSFMAT | Double-sided floor pad | 75 x 38 cm | 7.0 ltr | No | 50/cs |

Looking to protect your floor as well?

Support for success

We understand that introducing new protocols or products can be a significant investment in time and effort. We can help. Our team of experts offers you clinical and product support to help ensure successful implementation.

Our team of experts can provide you with:

- Product-related services and training
- Specialised information on product usage and best practices
- A comprehensive skin management programme.

**Find out more about our clinical and educational support services.
