

# Gentian Violet-Free Skin Marker

## Enhancing patient safety

In 2021, the [International Agency for Research \(IARC\)](#), part of the World Health Organization (WHO), highlighted the potential carcinogenic risks of gentian violet. In response, Medline has developed a Gentian Violet-Free Skin Marker for easier and safer surgical site marking.

### Are you Interested?

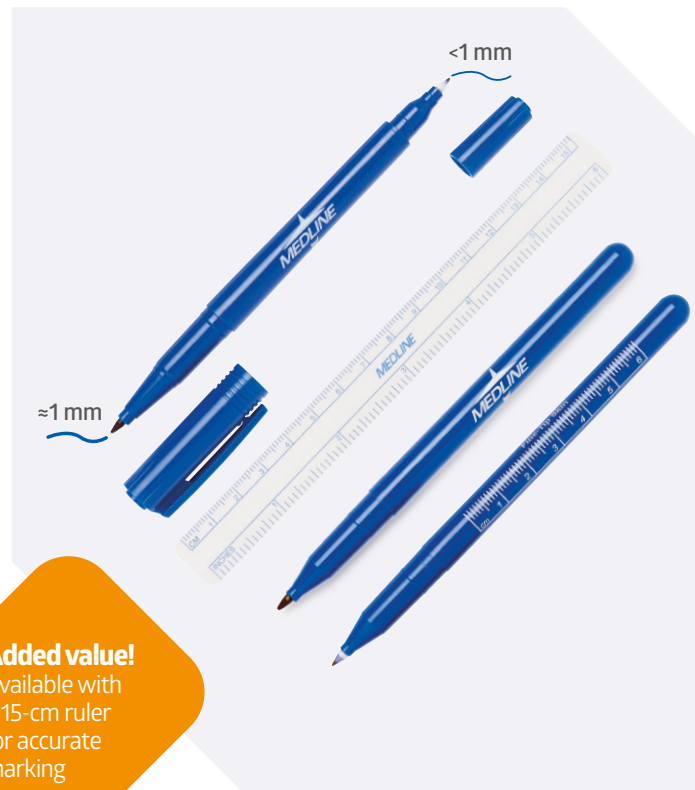

### Increased safety and standardisation

Supports the Joint Commission (JCAHO) standard for correct site surgery

### Key benefits and features

- Suitable for use on all shades of skin
- Non-toxic, non-smear and non-irritating
- Constant ink flow that facilitates clear marking
- Intended for single-use
- Available with regular tip, fine tip, or combined dual tip

**Added value!**  
Available with a 15-cm ruler for accurate marking

### Ordering information

Reference	Description	Packaging	Pack component number
SM01	Skin marker; dark-blue, regular-tipped, with ruler	50 ea/cs	NS-SM01 (w/o ruler)
SM03	Skin marker dark-blue, fine-tipped, with ruler	50 ea/cs	NS-SM03 (w/o ruler)
SMD02	Skin marker; dark-blue, dual-tipped, with ruler	100 ea/cs	NS-SMD02 (w/o ruler)

### Best practice

For the best results, ensure:

- The patient's skin is not oily before marking
- Use on dry and intact skin
