Medline Surgical Gowns

Performance, quality and variety

An extensive choice

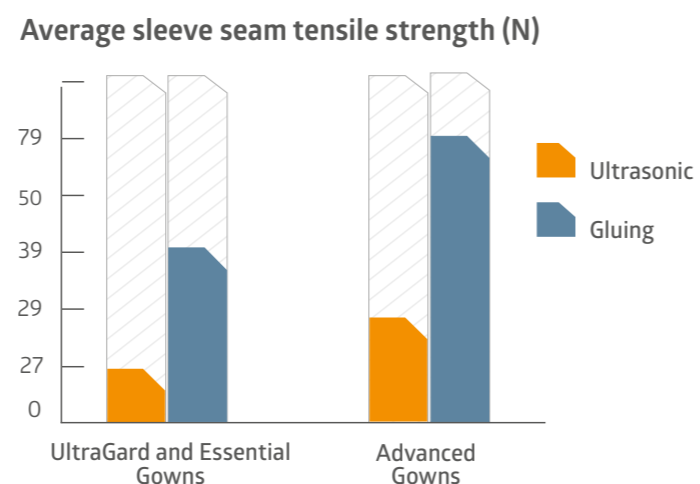

To satisfy preferences in the operating theatre, we offer five different fabric options for surgical gowns, each with a distinct style and reinforcement.

Dependable protection

Medline's gown fabrics offer high-level protection. Each gown is latex-free and meets or exceeds the minimum performance requirements of the EN 13795 standard.* The Essential and Advanced materials have a high hydrostatic head, and the extra alcohol repellence treatment gives wearers the protection they need and comfort they deserve. The unique Ultimate gown offers all-over impervious protection with exceptional breathability.

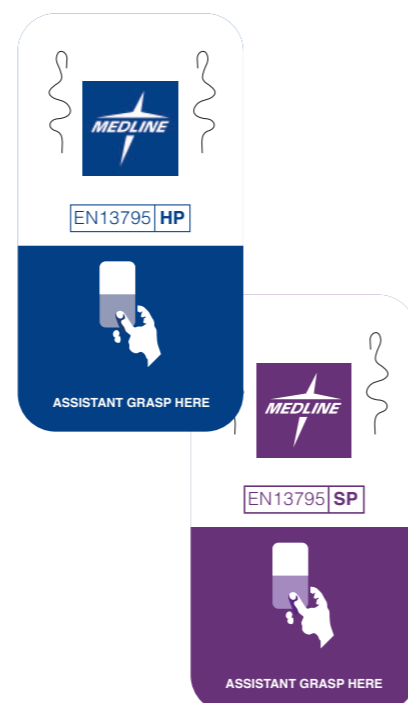

High performance with high comfort

All our surgical gowns offer operating theatre staff excellent comfort and ease of use. High-tech, breathable fabrics keep the wearer comfortable and dry, even during long procedures. The gowns feature sleeves with glued seams, which contribute to greater strength and comfort.

Easy to use

All Medline surgical gowns feature intuitive colour coding for easier gown selection in the operating theatre. Purple product labels and transfer tabs indicate standard performance, and blue is for high performance. In addition, we offer three different gown collar colours to quickly identify the gown style—standard, fabric-reinforced or poly-reinforced.

*The EN 13795 is the European standard, specifying requirements for single-use and reusable coverings—surgical gowns and drapes used as medical devices for patients, clinical staff and equipment, intended to prevent the transmission of infective agents during invasive surgical procedures.

OPS™ UltraGard

Effective gown, affordable price

- Lightweight SMMMS (35 gsm) material with natural, fluid-repellent protection
- Comfortable and breathable
- Gown available with either standard or poly-reinforced protection

Item number	Description	Qty/case
E3505CEA	Surgical gown, S/M, 115 cm	36
E3506CEA/E3506DCE*	Surgical gown, L, 120 cm	36/48*

OPS™ Ultimate

The intelligent gown with breathable membrane technology

- High performance across the entire gown and fully impervious to blood-borne pathogens (AAMI* PB70, ASTM F1671 tested, EN 13795 compliant)
- Made of 60 gsm trilaminate material
- Breathable and cool: reacts to increasing body temperature by increasing water vapour transmission
- Recommended for all procedures where breathable protection all over is needed, such as long cardiological, orthopaedic and transplant surgeries

Item number	Description	Qty/case
LW89045CEB	Breathable, impervious surgical gown, XL, 130 cm	20
LW32474CEB	Breathable, impervious surgical gown, XLL, 150 cm, raglan sleeves	20
LW39079CEB	Breathable, impervious surgical gown, 2XLL, 150 cm, raglan sleeves	20

We also offer surgical gowns featuring special fabrics, tested against chemotherapy and cytotoxic drugs.

Item number	Description	Qty/case
DYNJPE2301P	Impervious OR gown, prevention plus, L, 114 cm	24
DYNJPE2302P	Impervious OR gown, prevention plus, XL, 142 cm	24

Prevention Plus gowns comply with EN 14605 and PPE Regulation (EU) 2016/425.

*AAMI: Association for the Advancement of Medical Instrumentation. The AAMI PB70 is the US reference standard, establishing a system of classification for protective apparel and drapes, based on their liquid barrier performance. It specifies related labelling requirements and standardised testing methods.

Eclipse®

A soft and comfortable gown
