Unable to call for help, he was found on his sofa after 3 weeks.

The recovery of Mr X
became our expedition
through the delivery of
holistic care

We cared for his skin damage, clipped his nails, optimized his nutrition and began reconditioning Mr X so that he was in a position to improve his continence

His skin has now mostly
healed...

He can comb his hair and eat
by himself...

He is now also able to walk
15m on his own...

Mr X is now able to go out to
the toilet

Mr X is no longer the man
who we first saw on a
hospital bed a month ago...

Proving that holistic
intervention and treating
the cause not just the
moisture damage was really
the greatest intervention
that we could offer
